RVGEN.AI PRODUCTION

Founded: 2025 **UAE**

RVGEN.AI Production **(UAE)** is a next-generation media technology studio focused on AI-driven filmmaking and animated storytelling. The studio operates on a hybrid AI workflow that combines proprietary AI pipelines with human creative direction to produce visually rich, culturally aligned, and globally scalable content.

Positioned at the intersection of cinema and deep technology, RVGEN.AI develops premium animated IPs, vertical series, and AI-powered film projects for the global creator economy.

Leadership

Pooja Barasia — AI Film Director & Creative Technologist

A specialist in AI-driven filmmaking and video creation, Pooja leads the creative and technological direction of RVGEN.AI. Her work focuses on blending cinematic storytelling with advanced AI workflows to achieve high-quality visual narratives at scale.
